Delivered, set up and collected for you. No cleaning required.

Welcome

Every great party needs to be heard! Hire a sound system and give your event a proper voice with music filling the room, speeches heard at the back, and guests tapping along without straining to listen. Panda Party Hire offers sound system hire across Johannesburg, Sandton, Randburg and nearby.

Birthdays, school events, corporate functions, weddings and outdoor gatherings all sound better with PA hire. Professional speakers and microphones without you buying, storing or wiring your own gear.

We deliver, set up and collect. You do not need to coil cables or pack down heavy speakers when the night is over. Our sound systems are well maintained, tested between hires, and connected properly at your venue.

Before your event starts we test the sound system on site with you. Levels, playback and microphones, all checked together. We show you how to use it and our team will answer any question so you can focus on hosting, not troubleshooting.

You can trust Panda Party Hire to be on time and sound checked before the first guest walks in. Enquire on Party PA, Event PA or Outdoor Production below, or contact us for a quote sized to your venue.

Hire packages

Choose the package that fits your guest numbers. All packages include delivery guidance, on-site test and tutorial, and collection when your hire ends.

Hire extras

Delivery and setup

We deliver, connect and test your system before your event starts.

Microphones

Wired and wireless mics available. Tell us what you need when you book.

Tailored quote

Pricing depends on venue size and requirements. Contact us for a quote.

How to prepare for the day

Good sound starts with the right layout and power before guests arrive.

Know your layout

Tell us where speeches, dancing and eating happen so we place speakers in the right spots.

Power available

Speakers and mixers need mains power. For remote venues, ask us about generator options when you book.

Device charged

If you are playing playlists via Bluetooth or phone, charge your device and download playlists beforehand.

Microphone plan

Think about who is speaking and when. We can provide handheld or wireless mics on request.

Outdoor weather cover

For garden events, identify sheltered spots for equipment if rain threatens.

Neighbour friendly levels

Tell us if homes are close by and we will size the system and set levels appropriately.

Why hire Sound System?

Clear sound

Professional PA for speeches, music and announcements.

We set up and test

Sound check on arrival so your event runs smoothly.

Mics included

Wired and wireless options for hosts and performers.

Scalable

From garden parties to larger outdoor venues.

Popular events

Birthday parties, School events, Corporate functions, Weddings, Sports days, Outdoor ceremonies, DJ playback, Community concerts.

Delivery areas

We hire across Johannesburg, Sandton, Randburg and surrounding Gauteng suburbs. Delivery and collection fees depend on your venue address. Tell us your location when you request a quote.

- Johannesburg
- Sandton
- Randburg
- Fourways
- Midrand
- Roodepoort
- Bryanston

Rosebank
Northcliff
Bedfordview

How booking works

1. Request a quote with your date, venue address and guest numbers.
2. Choose the hire package that suits your event, with extras if needed.
3. Confirm your date and receive booking details before delivery day.
4. We deliver, set up and test the equipment with you on site.
5. Enjoy your event while guests make the most of the hire.
6. We collect afterwards. No deep cleaning required from you.

Safety information

PA systems involve electricity, cables and volume levels that must be managed safely indoors and outdoors.

Essential safety rules

- Keep cables secured and away from walkways.
- Do not overload power outlets. Follow our setup advice.
- Protect speakers from rain. Outdoor packages are rated accordingly.
- Set volume at a safe level for children's events.
- Contact us immediately if you hear distortion or buzzing.

Hearing safety

Prolonged loud music can damage hearing, especially for young children. We sound check at sensible levels. Reduce volume if guests are close to speakers.

Outdoor weather

- Cover or move speakers if rain threatens.
- Do not use outdoor setups in lightning storms.
- Secure lightweight stands in windy conditions.

Trip hazards and power

- Tape cables flat along edges where guests walk.
- Do not run cables through puddles or wet grass.
- Switch off before disconnecting speakers if you are unsure.

Weather policy and instructions

PA systems, speakers and microphones need protection from rain and careful placement in wind. Outdoor packages are planned with weather in mind - tell us your venue layout when you book.

Ideal conditions

Dry weather with moderate wind suits garden ceremonies, school sports days and corporate

functions. Indoor venues are largely unaffected.

- Covered area for mixer and wireless receivers when outdoors
- Speakers positioned for coverage without blasting neighbours
- Cables taped down or routed away from walkways
- Volume set appropriately for children-s events

Rain and moisture

Standard speakers and amplifiers must not get wet. If your package is not rated for open rain, equipment must move under cover before showers.

- Have a tent, veranda or hall ready for sudden storms
- Power off amplifiers if rain threatens open gear - contact us if unsure
- Dry microphones and hands before use after drizzle
- We specify at booking whether your setup is under-cover outdoor or fully weather-exposed

Wind and outdoor speech quality

Wind causes rumble on microphones and can blow over lightweight speaker stands on uneven ground.

- Use windshields on handheld and lapel mics outdoors
- Weight or stake stands as we set them - do not relocate without care
- Choose a sheltered spot for the ceremony arch or podium

Lightning and extreme weather

During active thunderstorms, disconnect and shelter equipment. Guest safety comes first - music and speeches can resume when the storm has passed and gear is dry.

Contact us as early as possible when weather may affect your hire. Your booking confirmation includes phone and message details for the day. We prioritise safe use of equipment and fair solutions for Johannesburg, Sandton and Randburg events.

Frequently asked questions

Q: How do I get a quote for sound system hire?

Tell us your venue, indoor or outdoor, guest numbers and whether you need music playback, speeches or both. We size the PA and send a quote for Party PA, Event PA or Outdoor Production.

Q: What is included in a sound system hire?

Powered speakers, mixing desk, microphones, cables, stands, delivery, setup and a sound check on arrival. Exact kit depends on your package and venue size.

Q: Can I play my own music?

Yes. Connect via Bluetooth, aux cable or USB depending on your setup. Perfect for playlists, background music and party dancing.

Q: Do you provide microphones?

Yes. All packages include at least one microphone. Wireless mics for hosts and MCs are available on the Event PA package and above.

Q: Do you set up and test before guests arrive?

Yes. We deliver, connect everything and run a sound check with you so levels are right before the event starts.

Q: Can you hire for outdoor events?

Yes. Outdoor Production is designed for gardens, sports fields and open air venues with weather aware speaker placement.

Q: How loud will the system be?

We match speaker size to your venue and crowd. Tell us if you have neighbours nearby and we will plan accordingly.

Q: Do I need power at the venue?

Yes. Standard mains power is required. For remote locations, ask us about generator options when you enquire.

Q: Can I add extra speakers or a subwoofer?

Yes for larger crowds and dance floors. Mention your needs when requesting a quote.

Q: What events suit PA hire?

Birthdays, school events, corporate functions, weddings, speeches, sports days, markets and outdoor celebrations.

Q: Which areas do you deliver to?

Johannesburg, Sandton, Randburg and surrounding areas.

Q: How do I book?

Hit Book now or contact us with your event date, venue and requirements.

Equipment care on the day

We deliver clean, tested equipment and show you how to use it safely.

You do not need to deep clean or service the machine during hire.

Contact us on the day if anything does not work as expected.

Keep equipment in the agreed setup area ready for collection.

Switch off and secure equipment if weather makes use unsafe.

Often booked together

Customers often pair sound system hire with: Jumping Castle, Outdoor Cinema, Bubble Machine. Ask us about combo bookings when you quote.

Ready to book?

We deliver, set up, test with you and collect afterwards.
